Lola vive! è una storia che si colloca tra quelle memorabili: il registro corre sul filo del noir nella prima parte, della fantascienza, nella seconda parte. Kriminal, grazie alla sua capacità di travestimento, s'impossessa di un bottino milionario ponendo fine ai piani e alla vita dell'affascinante ma spregiudicata Gloria Werdon. Impadronitosi di un aereo a reazione, in una scena sotto la pioggia, disegnata magistralmente da Magnus, Kriminal viene attirato nell'isola dell'arcinemico Mister Iceberg.

La vicenda assume i toni del fantastico più sfrenato con chip installati nel cervello, memoria rimossa e quindi riattivata. Il nostro anti-eroe riuscirà comunque a stravolgere i piani di apocalisse nucleare del folle Mister Iceberg riportando contemporaneamente alla vita l'amata Lola e il compagno di avventure Shan-Ton.
